

A magic wand for your beverages

The LifeTop™ Straw

The LifeTop™ Straw opens up for probiotics and other coming trends to give your brands a new potential.

The LifeTop™ Straw – new attractive possibilities

Attract new consumer with an added value to your products. The LifeTop™ Straw is designed for small volume sensitive ingredients, including probiotics. The patented packaging system handles room temperature storage and offers longer shelf life for the sensitive ingredients.

Brings new life to single serve cartons

The ingredient is on the inside of the straw and is released and mixed with the beverage when you drink it through the LifeTop™ Straw. The standard size of the LifeTop™ Straw gives you new possibilities within no-time. The straw is packed in protective aluminium sachets ready to run in existing straw applicators.

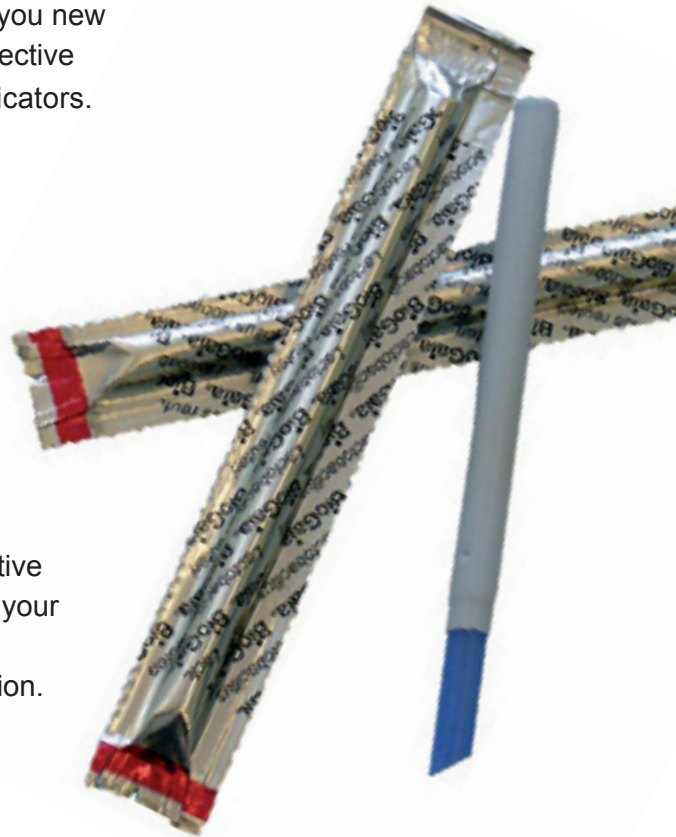

Probiotics and other coming trends

The LifeTop™ Straw is the smart solution to meet the demands of the consumers. Probiotics is a growing market, and a number of varieties appear as added value to functional beverages. Thanks to the design of the LifeTop™ Straw you can now create unique, shelf stable, probiotic beverages.

Standard – yet a higher standard

The patented LifeTop™ Straw can give you new attractive opportunities to develop your products and strengthen your brand in the hard competition of the beverage market. The LifeTop™ Straw will be swift to fit in to the production. Designed in standard size, the LifeTop™ Straw can be incorporated in a high volume production right away.

The LifeTop™ Straw gives your brand a new potential

Also from CapAble – LifeTop™ Cap

The unique patented solution of the LifeTop™ Cap keeps the ingredients inside the cap of the bottle until the consumer releases it. The unique cap is suitable for a vast variety of ingredients, stretching from sensitive functional ingredients to attractive colours and flavours.
