

# Make it come to life!

## The LifeTop™ Cap

The LifeTop™ Cap from CapAble works miracles in the bottle. With the ingredients in the cap a new generation of beverages will hit the shelves.

## True ingredient protection makes it possible to create new unique beverages

Attract new consumer with an added value to your products. The LifeTop™ Cap is designed for small volume sensitive ingredients, such as probiotics. The patented packaging system handles room temperature storage and offers longer shelf life for the sensitive ingredients.

## Compatible with existing PET bottles and production lines

The LifeTop™ Cap is designed to fit standard bottlenecks. This means that you can have a swift start with limited modifications of the production lines.

## Makes your product development easier

Now only your imagination sets the limit. On the intense market of functional beverage the innovations appear in an ever increasing pace. LifeTop™ Cap is a chance to get ahead in the tough competition.

## Fun and involvement for your consumer

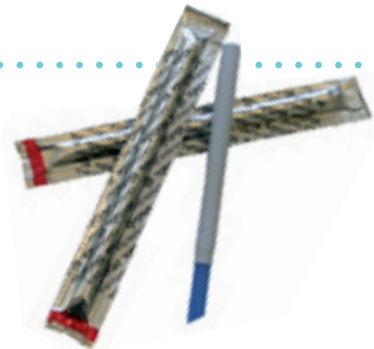

The added value of the LifeTop™ Cap should not be underestimated. On the challengeing market, the effect of the active involvement of your consumer adding the fresh ingredients, is a true advantage. The new feature of LifeTop™ Cap and a tasteful colour emerging in the bottle, may very well make the difference!

---

## Also from CapAble – LifeTop™ Straw

The LifeTop™ Straw is designed for small volume sensitive ingredients, including probiotics. The patented packaging system handles room temperature storage and offers longer shelf life for the sensitive ingredients in beverages.
